

Ellesmere Port Cultural Learning Exchange is researching what people in Ellesmere Port would like to make the town a better place to live for **families and young people**.

We're doing this so we can create a new plan for arts, culture and creativity in the town, and apply for funding to make it happen.

Our researchers are visiting schools in Ellesmere Port to get a diverse range of views from children and families. We'll be running short, creative sessions using art and craft activities to gather views. Your child has been chosen to take part in a 20 minute creative workshop on Wednesday 2nd October. Miss Reid will be in attendance.

Please let Miss Reid know if you do not wish your child to take part.

Thank you for your help in taking part and supporting this important work.
